

šraj, 2023

opis: V steklen kozarec povem besedilo ali zvok. Kozarec zapakiram v prozorno vrečko in zraven dodam besedilo z razlago objekta. Lastnik objekta lahko poljubno govori v kozarec in tako projicira in shranjuje misli v stekleni prostor.

oris: Objekt je enostaven, spontan, prazen. Izgovorjen zvok se ohranja v materialu. Objekt lahko "zapoje" nove ideje in shrani povedano idejo.

Mladen Stropnik, šraj, steklen kozarec, PVC vrečka, gumica, list z navodili/objekt različnih velikosti, odprta serija, narejen v sodelovanju z MGLC v Ljubljani, 2023.

scream, 2023

Description: I utter a sound or recite a text into a glass jar. I pack the jar in a transparent bag and add a text explaining the object. The owner of the object can speak into the jar and in this way, project and store thoughts in the glass space.

The object is simple, spontaneous, empty. The uttered sound is preserved in the material. The object can "sing" new ideas and store spoken ideas.

Mladen Stropnik, scream, glass jar, PVC bag, rubber band, instruction sheet/object of various sizes, open series, art object made in collaboration with the MGLC in Ljubljana, 2023
